2007 SACSCOC Committee for General Education

The General Education team reviewed all courses in the core curriculum and determined the degree to which the core curriculum at UT Dallas met the goals of general education. In *The Principles of Accreditation*, the Commission on Colleges asserted that UT Dallas must require "in each undergraduate degree program the successful completion of a general education component at the collegiate level that (1) is a substantial component of each undergraduate degree, (2) ensures breadth of knowledge, and (3) is based on a coherent rationale." To measure UTD's compliance, this committee reviewed the course assessment of the various courses offered as a part of the core curriculum as well as the rationale for the courses included in the "core." Led by Associate Provost and Undergraduate Dean Michael Coleman, this team worked with the Core Curriculum Committee closely in determining what, if any, changes were required to be in full compliance with this goal.
