THE UNIVERSITY OF TEXAS AT DALLAS

University Financial, Information Technology and Physical Resources Working Group

Committee Description: This committee ensures that the University meets the guidelines for fiscal soundness and stability, financial aid administration and regulation, sponsored research programs, and physical facilities. As a part of the committee's work, this group also focuses on environmental health and safety issues as well as campus security. This committee will review the entire information technology infrastructure, including the computer labs, the wireless network, email systems, and even the UT Dallas web portal to identify the degree to which UT Dallas' information technology infrastructure services not only met the needs of students but also provides adequate safeguards against security vulnerabilities and online threats.
